

# Tolia

A town founded by many wayward souls from the Old World before its destruction. Primarily inhabited by Lycians, Tolia recently began trading relations with Ahmit. A large hole with suspicious artifacts sits just outside of town.

A necromancer named Velire tried to attack the town before being thwarted by Team Thoril.

Cecil and Vex spent much time developing relationships with the Troubadours who resided in Tolia.

"Oh yeah, the first town we found. Glad we managed to stop Velire's army of skeletons, at least," Xena, on Tolia.
