

Morul

Also known as Morul of the Body. They are one of the four Primodials - a great wyrm - and granted the gift of growth to the creatures living on Simuhay. Their current whereabouts and status are unknown.

Contrary to Arathan religious beliefs, it was Morul who created the Arathans, not Astaroth. Morul shaped the Arathans in their own draconic image.

“It threatened to eat Jackson and all of us and that’s fucked up...because Aarindal is a jackass home invader. And...it hates me too, because of the scales. That’s upsetting...” - Excerpt from Xena’s second journal.
