

# Kayde

Kayde, an Arcanian warlock and sorcerer granted Sago's blessing, is a member of the now-disbanded Guild Council and the founder of the Amethyst Institute. They were one of the first members of Guild Council (before the group was known by that title), choosing to stay with the group after they showed their support in the face of Kayde's pact with Baphomet. One of the major goals of their travels was to search for some way to break said pact.
