

Excerpt from Kayde's Notes

I hardly talk about it enough, but I really do appreciate all that Ninty tries to do for me. He's been trying to help be since even back before the Collapse, even when I refused to tell him anything. I owe a lot to him for sticking through things with me, taking on the responsibility of reading (and safeguarding) that book of demons, and just generally caring about my well-being. He's in all honesty one of the few people I feel I can fully trust.
