

Rath Rosarea's Death

On Wyrmblood Isle, the noble known as Rath Rosarea waited - decaying and unaging. He held the continent of Avistym in stasis in order to maintain his ill-earned eternal life.

His death at the hands of a band of adventurers freed the continent from its stasis, setting the world once again into a period of growth.

Valefor's Archive / Declaration of Rath Rosarea's Passing

After years spent using dark magic and monstrous acts to artificially prolong his existence, Rath Rosarea was brought to justice by his heir Fisk and their companions.

Koebi's Journal

"Many people believe that emotions are undervalued by people like me; scientists, researchers, wizards and the like. Quite the opposite. Let me show you how powerful emotions can be when they're distilled, weaponized, and fired into the face of a madman."

Scattered personal notebook of Logan

"To think we'd been on the island for completely different reasons while all this was going on! It was a very fortunate meeting to have the opportunity to help take down somebody who had been doing so much evil, looks like it's had a big effect on the world too, I hope the Guild Councils travels past this point prove fruitful, wherever they end up going next!"

Excerpt from Kayde's Notes

Rath seemed only to care for one thing. His mind was so transfixed on it and it alone. He is dead and gone now, but the way he acted haunts my mind still. It was stated in his document that he formed some kind of contract with an unknown being in exchange for his power and his unending life, and it ended with him in that state... I shudder to think of it. If I do not find a way out of my own pact with Baphomet, I fear the same might come of me.

Excerpt from Xena's journal

"Hard to believe I actually was the one that did him in. I was scared shitless of him, but...fuck. He's dead and gone now. Things are better now that he's finally dead. No history with him - but what little I know, he fucking sucked. So I'm glad he's dead. I'm glad I killed him. I'm glad I found the strength to do that. And I damn well will do the same to Aarindal."
