

Excerpt from Xena's journal

"Hard to believe I actually was the one that did him in. I was scared shitless of him, but...fuck. He's dead and gone now. Things are better now that he's finally dead. No history with him - but what little I know, he fucking sucked. So I'm glad he's dead. I'm glad I killed him. I'm glad I found the strength to do that. And I damn well will do the same to Aarindal."
